

Activities Plan of Social Responsibility Committee 1442/1443

The committee is concerned with matters related to academic department provision of services and partnerships inside and outside the College and University in a way, which achieves the development of the academic and the development and improvement of the local community.

Committee Duties:

- 1) Establish databases on community institutions and their requirements and community services that can be provided by the department and submit them to relevant institutions.
- 2) Collect and categorize projects implemented by the department and its members and the outcomes of these projects contributions to community service and development plans.
- 3) Encourage and develop the initiative spirit of the students to maximize the effect of the service and the volunteering role of the community through seminars and publications in coordination with the relevant committees in the department.
- 4) Propose voluntary programs and partnerships to enhance the relation between the department and the community and follow up their implementation.
- 5) Propose programs and services to serve the university community.
- 6) Establish databases for department graduates and employers that include means of communication with them.
- 7) Activate means of communications with graduates (like Department Alumni Association).

- 8) Develop mechanisms to strengthen association between graduates and recruiting bodies.
- 9) Poll the graduates who have jobs on their assessment about the extent they benefitted from the department's program, course contents previously studied, analyze the results statistically and submit recommendations accordingly.
- 10) Develop effective mechanisms to provide employment opportunities for graduates in their fields of specialization, (for example, by holding employment fairs - polling the employers' opinion about graduates levels - surveying the opinions of employers on the main courses of the program and department).
- 11) Update the department's portal.
